REPUBLICAN NOMINATION. FOR PRESIDENT, Abraham Lincoln, OF ILLINOIS.

YOR VICE PRESIDENT, Hannibal Hamlin, OF MAINE.

[Providence Correspondence of the News.] PROVIDENCE, July 20th 1869.

To the Editor of the News . Our oity is now wearing its usual summer quietude. Many of our citizens will be ecen among the White Hills, drinking the waters of the Springe, enjoying the fashion and natural beauty of Risgara, quietly reposing in rustic, seeluded farm houses in some still and remantic village, or going the round of pleasure in your own boautful and occup-girted city, which I prosume is noisy with its summer butterflies of wealth and fashion The dog star in the ascendant, and our good people rush with frantic real to the country the sea shore, -- any othere to get a peep one more at nature, and to breath again pure air, laden with the pertume of the flowers and the new mown hay, and to enjoy once more the freshness of the fruits and vegeta bios, and to drink the rich, creamy milk. Seme to re-visit the home of childhood, and to cast away all the cares of life for a while, and to review the pleasant access of early dars, when brothers and sisters were at home and their companions now perhaps far away, spect the rich grain-land of the West meets the Pacific coast. Some may be dead, some perchance, away on the billows; but still it seems pleasant to behold once more the place where so many years of joy were passed, and formuse over the doings of years since then.
Old Time is partial to none; all must receive
his sands and truges of age. So far our summer has been very pleasant, werinth without

The great political event slace my last, has been the organization of a band of "Wide Awakes," similar to those of other citles. They are to appear publicly, in uniform, soon and mean to astonish some folks by their strength They are mostly composed of roung men, who will doubtless make their power felt during the campaign.

Every pleasant Sabbath evening a temperance muoting is held on the Park, which is attended by large numbers. It was started by the exertions of the Rev. Mr. Couklin, of of the exercions of the Ree, left confirming this city, who has long and extractly worked for the advancement of the temperance cause, and by his labors alone has done much good buring his absence on his vocation, the meet-ing is carried on by a committee of three, who weekly appoint several spoukers selected from the clergy and friends of the cause or cuing by S. Clouga, Esq., Seth P. Horton and others. These meetings have for their end the total aunitiflation of the rum trade in this city, by arowing public indignation and causing the officers of the law to enforce the laws in relation to such matters. We have right laws, and all we need is a nigid enforcement of those laws. Why do not our officers arise from their slumbers and clear from our midst the pestilential places where death and disgrace go hand in hand with the monentary pleasure and exhibaration of the wine cup! Where is our young Governor Would he make himself famous and useful Would be have the blessing of fathers and mothers and maidens? then let him rid the clty of the cursed influence of rum. Imprilles of the blood, depression of vital energy, pale and otherwise sickly complexious indicate its necessity in almost every conceivable case. Innxolous in all maladies in which it has been tried, it has proved absolutely curative in each of the foliowing complaints, viz:

In Debtity, Nervous Affections, Functional Dyspens a, Const input it, Dustrieds, Dysentery, Incipient Consumption, Bysentery, Incipient Consumption, Bysentery, Incipient Consumption, Businessity and the confidence of the constitution o

In cases o' Conneral Debility, whether the result of some disease or of the continued diminution of norvox and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids solong bed ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land.—Some very signal instances of this kind are attested of female Sufferers, emaciated victure of apparent marasmus, subguincous explaints. times of apparent marsamus, sunguineous ex-hautition, critical changes, and that compli-cation of nerrous and dyspeptic aversion to all and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is reportedly tonle, without being exciting and overheating; and gently, regularly aperient, even in the most obstitute cases of contiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

cases of contiveness, without ever being a grastric purpative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspepsia, innumerable as are its causes, a single ber of these Chulybeate Pills has often sufficed for the most habitual cases, including the attendant Costiceness.

In unchecked Dispersion, confirmed, conaciating, and apparently malignant, the effects nare been equally decleive and astonishing. In the local pains, loss offiesh and stength, idebilitating cough, and remittent heetic, which generally indicate Inciptent Comsumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scrolulous Tuberculous, this medicated from has had far more than the good effect of the most cautiously balanced preparations of iodule, without any of their well known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In Rhoumatism, both chronic and infimiatory—in the latter, however, more deidedly—it has been mystaked preparations and stiffness of the joints and muscles.

ST. NICHOLAS HOTEL,

Hroadway, New York.

WHEN COMPLENTED, six years ago, the
St. Nicholas was universally pronounced the most magnificent, convenient,
and thoroughly organized esteblishment of
the kind on this continent. What it was
then it remains to today—without a rival in
size, in sumptuousness, and in the general
elements of comfort and enjoyment. The
Hotel has accommodations for 1,000 guests,
including 100 complete suites of apartments
for families. Eix hundred persons can be
comfortably scated at the tables of its three
public dining rooms, and nothing that modern art has devised for the convenience and
social gratification of the traveling public has
been omitted in its plan, or is neglected in
its practical details. The early reputation of
the house at home and abroad, derived from
its magnitude, its superb appointments, and
its home-like comforts and luxurles, has been
onhanced every year by the univearied exertions of the proprietors.
